1. A **Hypatia** e o **Tobias** fizeram, cada um, uma figura no **geoplano**.

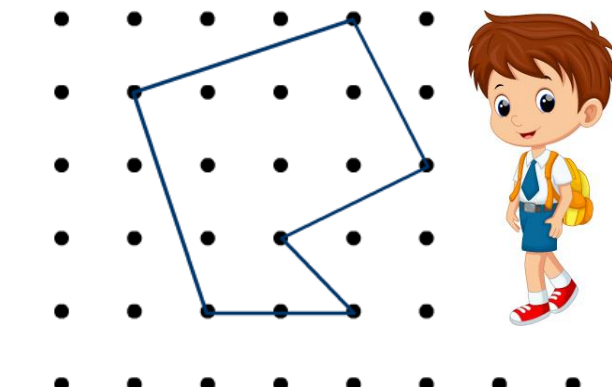

Qual deles tem a figura com mais ângulos retos?

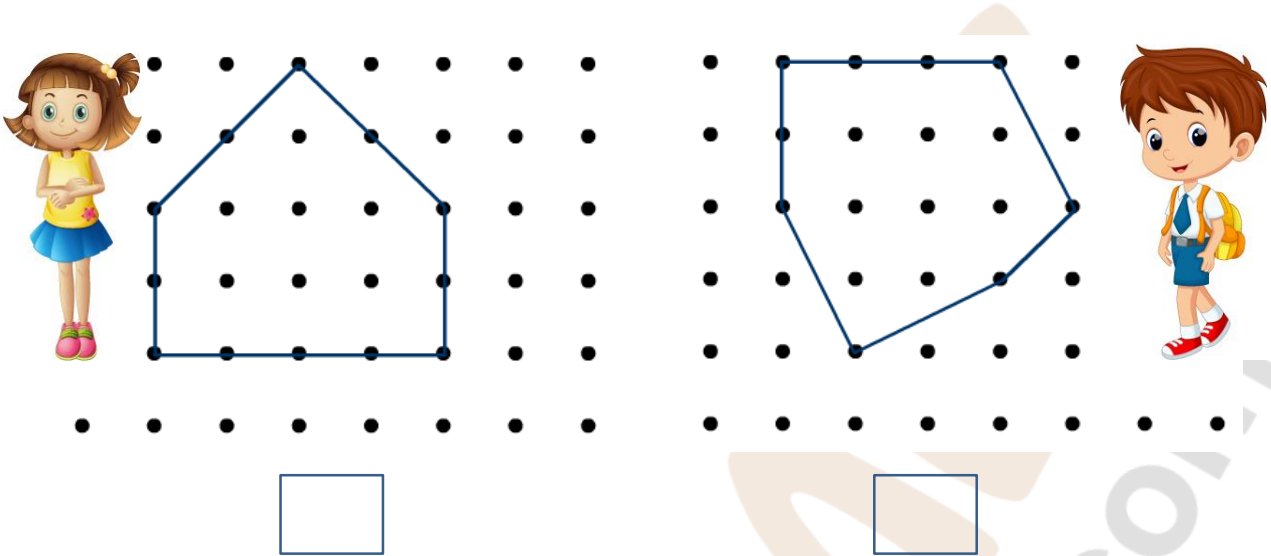

Assinala a opção correta e confirma a tua resposta, **usando o esquadro**.

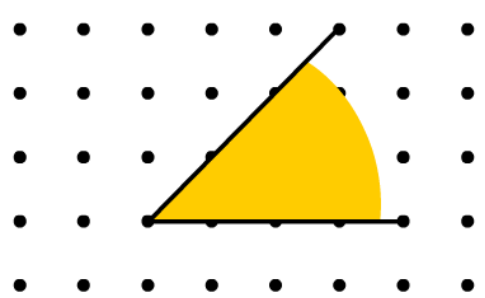

2. Classifica o ângulo representado na figura 1.

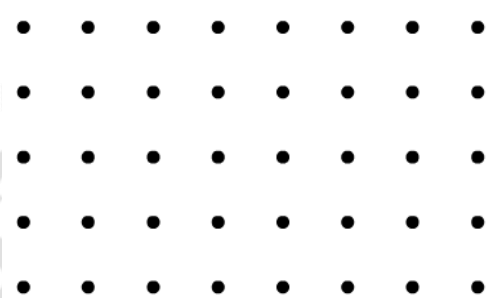

Desenha na figura 2 um ângulo reto, na figura 3 um ângulo obtuso e na figura 4 um ângulo raso.

Figura 1

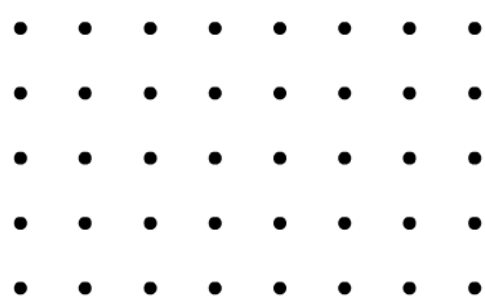

Ângulo _____

Figura 2

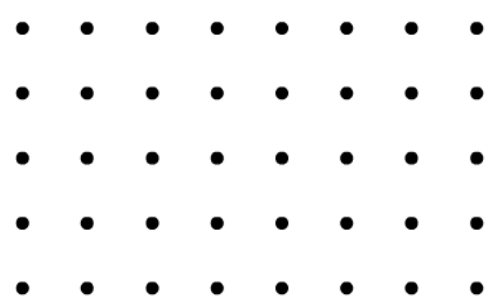

Ângulo reto

Figura 3

Ângulo obtuso

Figura 4

Ângulo raso

3. O Pedro quer desenhar um pentágono, usando os vértices da quadrícula. Já desenhou 3 lados (estão a vermelho).

Desenha os lados restantes, **utilizando um esquadro**, sabendo que terá 3 ângulos retos. Encontra duas maneiras diferentes de o fazeres.
